### Hotels in Stockholm

Konstfack is situated a few minutes' walk from the **subway station Telefonplan**. It takes about 14 minutes to go by subway from the Central station to Telefonplan, and along the **subway line 14 towards the end station Fruängen** from subway station T-centralen (connected to the Central station) there are plenty of hotels in nice areas.

The list below contains suggestions of hotels and hostels in different areas along the subway line. The big island Södermalm constitutes the southern part of Stockholm inner city and the area offers a variety of restaurants, shops and cafés. The smaller and peaceful islands Långholmen and Reimersholme are connected to Södermalm and it takes about 15 minutes to reach the closest subway station Hornstull. They also offer the possibility of morning baths in Lake Mälaren which surrounds central Stockholm. If you prefer to stay close to the Central station in the inner city there are plenty of options for hotels, and three hotels with different character are suggested in the list.

If you chose to stay at an Air bnb you can safely book a place in any district around Konstfack. The immediate surroundings are nice, as well as Hägerstensåsen south of Konstfack. There are also some very cosy and small town-like areas between Telefonplan and Liljeholmen, such as Midsommarkransen, Aspudden and also Gröndal. Gröndal is off the subway line, but there is a tram from Liljeholmen subway station, and also a bus (161) that goes to Telefonplan from Gröndal. The only district that perhaps should be avoided is Nybohov, close to Liljeholmen, including the hotel Liljeholmens stadshotell.
